# Soil Sampling Stan Claim

Sample	Description	Comments
0	- orange-brown	- Mod. slope
1-6/8/76	- full rock chips, 1-6" down	
1005	- as previous,	- low to mod slope
2	lots of rubble + chips in it	
2005	- reddish brown, 3-7" down, full of rubble, clayey, full fine rootlets	- mod. slope, below outcrop hard to get good sample
3005	- yellowish brown, 4" clayey, rock fragments full of rootlets, 3-6" down	- low to mod slope, light wooded
4005	- as previous	low slope
5005	- reddish brown, clayey, full of chips & rubble, 5-8" down	- (most) mod to low slope, below 2" blushed soil

#	Description	Comments	Z
6005 7	Reddish brown, clay, full rubble 1-7" down	Below cliffs, steep slope to west	
7005 8	Reddish brown, clayey Full rubble & rootlets, 3 to 7" down	Moist slope below outcrop cliffs, light wooded - Barik talus - 970 m S.	
8005 9	Light brown, sandy, full of rubble, 2- 8" down - Talus fines	Moist slope, next to outcrop on large block with Barik, Ab- Zn - 5380'	
9005 10	Reddish brown, clayey 2-7" down	- moist slope, light wood	
1010 11 S	Yellowish brown, clay, full of fragments	- Moist slope light wood	
104005 12	Orange brown, clay, above some rock chips 2-6"	Moist slope, light wood	
105005 13	Reddish brown, clayey, rock frag, 12-8"	low slope, light brush
