Mr. W.H. Fritz,  
601 Booth Street,  
Ottawa, Ontario K1A 0E8

Dear Mr. Fritz.

Thanks very much for your fossil determination of Spencella Sp.

This confirms my suspicion of a 'thin' Stephen unit for this area.

I received your original letter (sent March 9th) and your copy (dated March 22nd) on the same day - March 28th. Our postal system never fails to live up to its reputation for inefficiency.

Best regards,
