PROJECTION TO YEAR END: 100 % OF BUDGET
CURRENT YEAR PROGRAM AND OBJECTIVES:

ESTIMATE

Same as before

WORK PERFORMED DURING PERIOD AND
SIGNIFICANT RESULTS/CONCLUSIONS:

A total of 3 holes were completed on the King property (Fig. 1). Two of holes intersected the contact at the bottom of the conglomerate and two holes intersected the adjacent fault zone (Fig. 2).

Only minor argillaceous alteration was seen in the holes and the geochemical results indicate no gold is present.

WORK PROGRAM FOR NEXT PERIOD:

Compilation of data.

CHANGES IN LAND STATUS:

None.
