Aardvark. Regional

T. Zanger. Trau # 10

D. Madson

842472

Summary

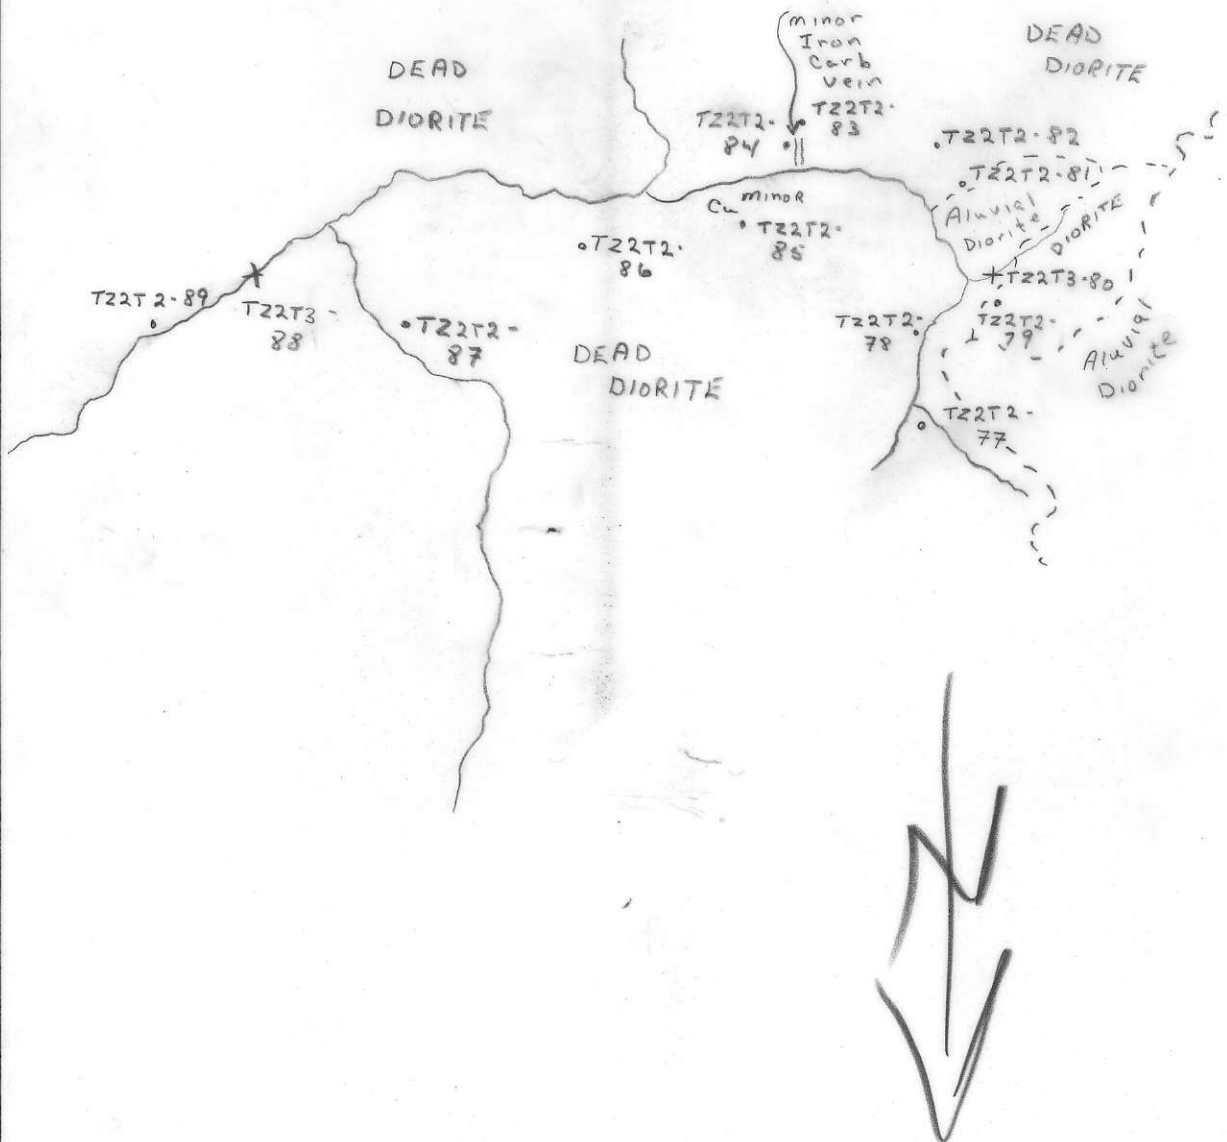

Traverse down creek flowing East, North East into Sheslay River from Arduark region.

Area has no gossin, but some light brown soils coming out of diorites.

Area rock boring beyond discription. We saw only minor, fresh quartz cutting outcrop & only came accross 1 small iron carbonate vein. This also was not interesting. No mine here
