

JUNE 15/81 S. GOERTZ

GOLD CK.

Summary:

842509 Today, Doug Madsen and I traveled about 2 mi along the East side of the headwaters of Gold Creek. We traveled North for about 2 mi. then East about 2 mi. taking soils roughly every 300 m and rock samples whenever needed. Terrain was steep and the weather varied from hot and sunny to snow blizzards. For notes on samples and types of rocks, see Doug Madsen's notes for June 15/81.
