

JUNE 9/81 Traverse Summary

S. GOERTZ

842592

Today, Dave Abercrombie and I were dropped off on a saddle between two mountains Northwest of the sharp bend in the King Salmon R. From there we walked Northwest approx. 2 1/2 mi. to a small lake. The traverse was along a small creek. Soils were taken every 300m and silts whenever possible. Terrain was steep and several slides were encountered.
