ROCK	SM 41-44	0.1g/t	1.3g/t	-	-

- soil sample
- rock sample

NOTE: Soil samples were taken every 5 m across the trench and at every different horizon present. This soil trench was put in to follow up a 1982 soil sample, DM-97, of 3250 ppb. Au. The trench cut through an area of landslide debris.

Rock Sample SM 41-44 located at approximately 23,381N 25,495E. See Geology map G-83, Block V N3a
