

Snowstorm Mine Drilling.
 No 2. Hole. Angle 63°
 Geological Section

Snowstorm mine Drilling.
 No.2. Hole. Angle 63°
 Assay Log of Bore-holes.

Snowstorm mine Drilling.
 No.2. Hole. Angle 63°
 Sludge.

Footage	Material penetrated	Remarks	Footage	Amount of core recovered	Assay value of Core	Remarks & Assay number	Footage	Assay value of Sludge	Remarks & Assay number
0 to 16	Soil and boulders								
16 to 50	Granitic country rock								
50 to 61	altered basalt								
61 to 202	Granitic country rock	much altered							
202 to 206	altered basalt								
206 to 233	Granitic country rock								
233 to 253	Porphyry								
253 to 289	Granitic country rock								
289 to 300	Porphyry								
300 to 335	Granitic country rock								
335 to 364	Porphyry	partly mineralized							
364 to 370	Granitic country rock	altered							
370 to 371	Porphyry								
371 to 400	Granitic country rock
