

Lock Box 505,  
SOUTH PORCUPINE,  
Ontario, Sept. 8, 1925.

Messrs. Talbot & Larsen,  
KEITHLEY P. O.,  
CARIBOO DISTRICT,  
B. C.

Dear Sirs:-

The samples I took from your property  
assayed as follows:-

17" Channel from Rusty Quartz vein in pit  
.....\$15.30 in gold per ton.

Grab of Rusty Quartz, from trench above  
tunnel.....\$31.00 in gold per ton.

Schist from pit near tunnel..\$2.89 in gold  
per ton.

All other samples taken, were below One  
Dollar in gold per ton.

In view of these low assays, and the  
remote position of the property from transportation  
facilities, I have been unable to interest my prin-  
cipals in the proposition for the time being at least.  
If, however, you uncover anything further, I would  
be very glad to hear from you, at the above address.

Thanking you again for your hospitality  
while on the claims, I am,

Yours very sincerely,

L. J. Foss,  
Examining Engineer,  
P. O. Box 505,  
SOUTH PORCUPINE, Ontario.
