4161 Crown Crescent
Vancouver, B.C. V6R 2A8

Dear Paul:

Thank you very much for the Annual Report on
Carolin Mines Ltd.

Further to our telephone conversation of this
morning, I would appreciate if you could put together
some basic information so that, by the time we receive
the feasibility study, we will have the necessary back-
ground to read it intelligently.

I think this will be worth our keeping in touch
with Mr. Gillespie and I hope you will be able to do this
on our behalf.

Best wishes for Christmas and the New Year.

Yours sincerely,

DOMEX EXPLORATION (CANADA) LIMITED

Dear Wally:

I was speaking with Orval Gillespie. He gave me the enclosed Annual Report, and promised me a copy of the feasibility study which should be done about January 10. I understand there was to be a write-up in the George Cross Newsletter, but I haven't seen it yet.

He quoted lots of numbers including, at the north end, 167' of 0.151 oz./ton Au. He spoke of more visible Au than was seen to the south and of assays up to 1 oz. Their method of cutting is to average the erratic highs with the assays on each side.

With best wishes,
Yours very truly,
Paul.
