

① [94F031] AKIE

Tues. July 23/96
Sunny + 28°C

- with Bob Lane
- fly Northern Thunderbird from Pt. Geo.
via Mackenzie to Finbow airstrip

(8:30 am → 11 am)

stops at Ospika
+ Tsen-Ken

Buffalo Head Camp = 80/day (Kens Road)

- Paul Baxter (Inmet)
(+ Justine)

Ref. GSC OF 483
Sheet 2 of 3 / WARE
west 1/2

3 km SE of #12395-18 ⇒ 2 expl'n holes
with 'promise' - (96-20-21)

Photos DPH 95-16 ~ 622m

~ 60 m intersection of sulphide

- want to drill below

Also #17 + #18

Akie
880105
946007

~~2 shot~~ 96-20 - 392m
1 km stepout SE from

Cardiac 1.5m 3.5% Zn 1.5% Pb
(P1) - fault zone + white g₂-carb.

HW - Gunsted shales + honey Zn
FW - Road R. Sst

~~Photo~~ 2 km to SE of Cardiac to
96-22 - folded + shadow
Py (no Zn) [note: in g₂-carb]

- 75-80 m above Road R. contact - new
46LM

est. 96-2) (Deep) - FW side
target @ 110 ft.

- upper ^{reddish} ZnS in gtz veins

Unfortunately 95-19 (restarted in '96) had
drilling problems (ie poor direction)
- ie missed target at depth

'Nodular' texture of carbonate in shales
(minor replacement of late-stage carbonate by pyrite)

- Photo - ²⁰ S (96) hole @ 3.5% Zn
'South
Zinc
Anomaly' (1 km E) - Arkie R in bkgrd.

Discovery (Cardiac (K) Showing
(walk down from nearest drill site)

FW = Road R. rd. A-94-3, A-94-4
HW = Gunshell shales

Ridge core - + Justine + Trevor Lewis
Photo - look ~~HW~~ at step-out drill <sup>(OSG
offshore)</sup>
(drilling south under core ridge) HW

DDH 96-20(?) - furthest south across Arkie R - "Faulted
out" (water fall barite showing - 8 m barite)

[For MacIntyre]
- Photo - look N over Trezel Lk + logging rd to road
