Dear Ian:

RE: PROPERTY VISIT - AKIE

As discussed earlier this Spring, I would like to arrange a 'co-ordinated' property visit to the Akie project this summer. My preference for timing would be **late July** (before the 27th) or **middle-late August** (eg. 16th-25th). I am hoping that either of these times would be the "most convenient" for Inmet, in terms of the project progress; further, I hope the site visit can be made to maximize the staff time commitment (i.e. yourself and/or others present) as well as the financial commitment associated with the access logistics. **At your earliest convenience**, I would very much appreciate your general/specific comments in order for me to make my necessary itinerary adjustments. For your information, I would also like to visit the **ELF** project at the same time as my Akie visit. I will be contacting Teck Corp. separately for arrangements.

I very much look forward to visiting with you. I believe you understand and appreciate my interest and need to visit the site. If you have any questions, please do not hesitate to contact me. I am looking forward to your reply.

Yours sincerely,

Tom G. Schroeter, P. Eng
Senior Regional Geologist
