Columbia Yukon Explorations is currently developing three major projects that allow the Company to carry out year-round exploration and drilling.

CANADA

Gold Canyon Project: Right to earn 100%

Located in the prolific mineral-producing region in the West Kootenay Mountain ranges of British Columbia.

- Silver/Gold prospect with significant mineralization shown.
- Drilling planned for 2004.

Barnes Creek Project: Right to earn 100%

A recent gold property discovery in the Monashee Mountain range of British Columbia.

- The region is a prolific area for gold mineralization with six placer deposits surrounding the Barnes Creek project.
- Drilling planned for 2004.

Hebner Lake Project: Right to earn 100%

Located in northern Manitoba, 120 km west-northwest of the Port of Churchill.

- Airborne electromagnetic survey completed on area showing significant mineralization
- Drilling planned for 2004.

An Exploration Leader in Canada's Precious Mineral Regions

TSX.V Symbol:

CYU

Columbia Yukon Explorations is well financed and looks forward to a successful year of exploration and development of promising properties.
