Sept. 20/89

- talk with Nick Carter
- lots of data at Cominco.
- Some potential problems:
  - 1) Mitsubishi looked at open pit potential = Negative.
  - 2) Acid Mine Generation - Gov't is on Cominco's back?

May 8/00  
Don Barker in office  
to discuss potential for  
rel. small (e.g. 15-18000 TPA)  
open-pit Cu-Ag operation.  
Needs to:

- i) Check re-reclamation (gov't) reqs
- ii) Ownership - TVI, Buchan, Cominco
