The Honourable Anne Edwards  
Minister of Energy, Mines & Petroleum Resources  
British Columbia  
Parliament Building  
Victoria, B.C. V8V 1X4

VIA FAX: 604.387.0929

Dear Ms. Edwards:

I was in contact with your Assistant in early December regarding my concern of a possible heritage site being established at the town of Beaverdell. I have not heard back as to the results of your Assistant's investigation, as she was unaware of the Heritage Department's proposal at the time of our conversation.

I trust that a full cost benefit analysis would be completed, and public hearings held should this heritage proposal proceed - in order that all stakeholders in the area may have their input. In the case of Gold City, I am concerned with the negative impact, of a heritage designation, upon the development potential of the Company's large mineral land holdings adjacent to this mining town.

Please advise me of Beaverdell's status as soon as possible, as we are now formulating 1995 exploration plans and related financing, for the area.

Yours truly,

**Gold City Mining Corporation**

John A. Chapman, P.Eng.  
President

cc. Dr. W.R. Smyth, Chief Geologist, Geological Branch
