NEWS RELEASE

MURRAY PEZIM JOINT VENTURES GOLD PROJECT

Robert A. Dickinson, President of Pacific Sentinel Gold Corp. (PSG:V) announced today that Corptech Industries Inc. has negotiated an option to earn a 55% joint venture interest in Pacific Sentinel's 100% owned Ursus Creek Gold Property.

The Option and Joint Venture Agreement call for Corptech to spend a minimum of \$250,000 on the Property during 1988 and a total of \$800,000 by January 31, 1991 to earn a 55% interest in the Property. Additional expenditures to production will be provided 45% by Pacific Sentinel and 55% by Corptech.

The Ursus Creek Property, located near Tofino, B.C. covers a 18 kilometre long gold-bearing structure. Limited prospecting has identified disseminated shear-hosted gold mineralization over a 4 kilometre strike length. Much of the gold-bearing structure on the property is obscured by overburden, with highly sheared grab samples assaying up to 0.7 and 0.8 oz gold per ton. Fourteen kilometres of the gold-bearing structure remains unexplored.

Pacific Sentinel's Ursus Creek Project has excellent potential for hosting a bulk tonnage disseminated gold deposit. The project will be operated on behalf of Corptech by Prime Explorations Ltd. Murray Pezim is the Chairman of Corptech and the Prime Group.

The Joint Venture Agreement is subject to regulatory approval.

In addition, Pacific Sentinel Gold Corp. is presently negotiating to acquire a further substantial gold project.

ON BEHALF OF THE BOARD

Robert A. Dickinson,
President
