

# BIG BEAD PROJECT May 13/02

- chat with John Chapman (Orphan Bay Res.)
- Orphan Bay about to announce 'deal' with Imperial Metals re-mill @ Goldstream + property.
- Concept: Use 'permitted' mill for 'custom milling' of regional props. (eg. Rift, Spire, V&L... + Goldstream prop.)
- Current tailings facility could accommodate ~1.5 yrs. additional material (before needing to raise sides)
- Budget? \$0.65k to \$1.5m
- 'Prospectors' Involvement: SC would like to 'engage' local prospectors i.e. pay staking costs / grubstake etc.
  - would like to put on a day training course in Revelstoke for 'potential' prospectors
  - to incl. session on Map Place (→ Cathro?)
