Re: Blackdome Mine Visit

First of all, Dave, thanks very much again for your kind hospitality at the mine this past week.

I have been asked to 'arrange' a visit to your mine on Thursday, August 28th from 10:00 a.m. to 3:00 p.m. for Bill McMillan, Andre Panteleyev and myself (EMPR) and three mineral deposit people with the Geological Survey in Ottawa. The purpose is part of a trip to examine gold deposits in Western Canada as part of a large publication on mineral deposits of North America (DNAG). I was singled out as a contact, thus I was only too happy to volunteer to return to Blackdome.

The plan is to stay overnight in Clinton at the Lodge and drive in the morning of the 28th, arriving between 9:30 - 10:00 a.m.

If possible, please phone me at 660-2812. Their schedule is very tight so I hope it's OK.

By the way, all the photos I took turned out. I'll bring them with me(?).  
Cheers.
