MEMPHIS

95/01/23

TOM SCHROETER/
BOB LANEAS DISCUSSED THIS MORNING
FIND THE FOLLOWING

1. COPIES OF '94 DRILL LOGS
(DAV-94-37 — DAV-94-41)
2. ASSAYS FOR '94 DRILLING
(INCOMPLETE FOR DAV-94-41)

I WILL IN THE NEAR FUTURE
PROVIDE YOU WITH A 3. DRILL PLAN

4. CROSS SECTIONS

5. OPPORTUNITY TO REVIEW 'TELESCOPED' SECTIONS
(I'M STILL ASSEMBLING THEM IN MY BASEMENT)6. WHOLE ROCK, ~~RES~~ WHEN AVAILABLE① No Hg, Tl, Mo, Be, Bi

REGARDS

VAL

* NOTE : CORE SAMPLES

1. TO MAKE LIFE EASY I EMPLOYED A SAMPLING SYSTEM THAT APPLIES AS FOLLOWS

37040 — FROM 40M TO 41M
DDH-94-37

AS A RESULT I HAVE NO SAMPLE ERRORS OR MISSING SAMPLES OR SERIES SKIPS

ALL SAMPLES WERE ~~ONE METER~~ (EXCEPT AT CONTACTS WHERE I'D GO 40cm, 160cm OR SOMETHING LIKE THAT)

I DID THIS TO MAKE GOING BACK TO THE CORE EASY AS WELL AS FOR SPEED IN WEIGHTING INTERVALS

2. SAMPLES TAKEN FOR ~~WHOLE ROCK~~, THIN SECTION, XRD, ETC WORK THE SAME WAY BUT END WITH #1 AND ARE SIX DIGITS
EG. 370571 FROM 57-58
