

SELCO Memorandum

subject: Buck Creek 1985 EXPLORATION
(Bob Creek)

date: Dec 12 1985

from: C.M. Rebagliati

to: T. Schroeter, District Geologist

MINISTRY OF ENERGY, MINES
and PETROLEUM RESOURCES

Rec'd DEC 23 1985

SMITHERS, B.C.

Tom. Congratulations on your impending move
to your new position in Vancouver.

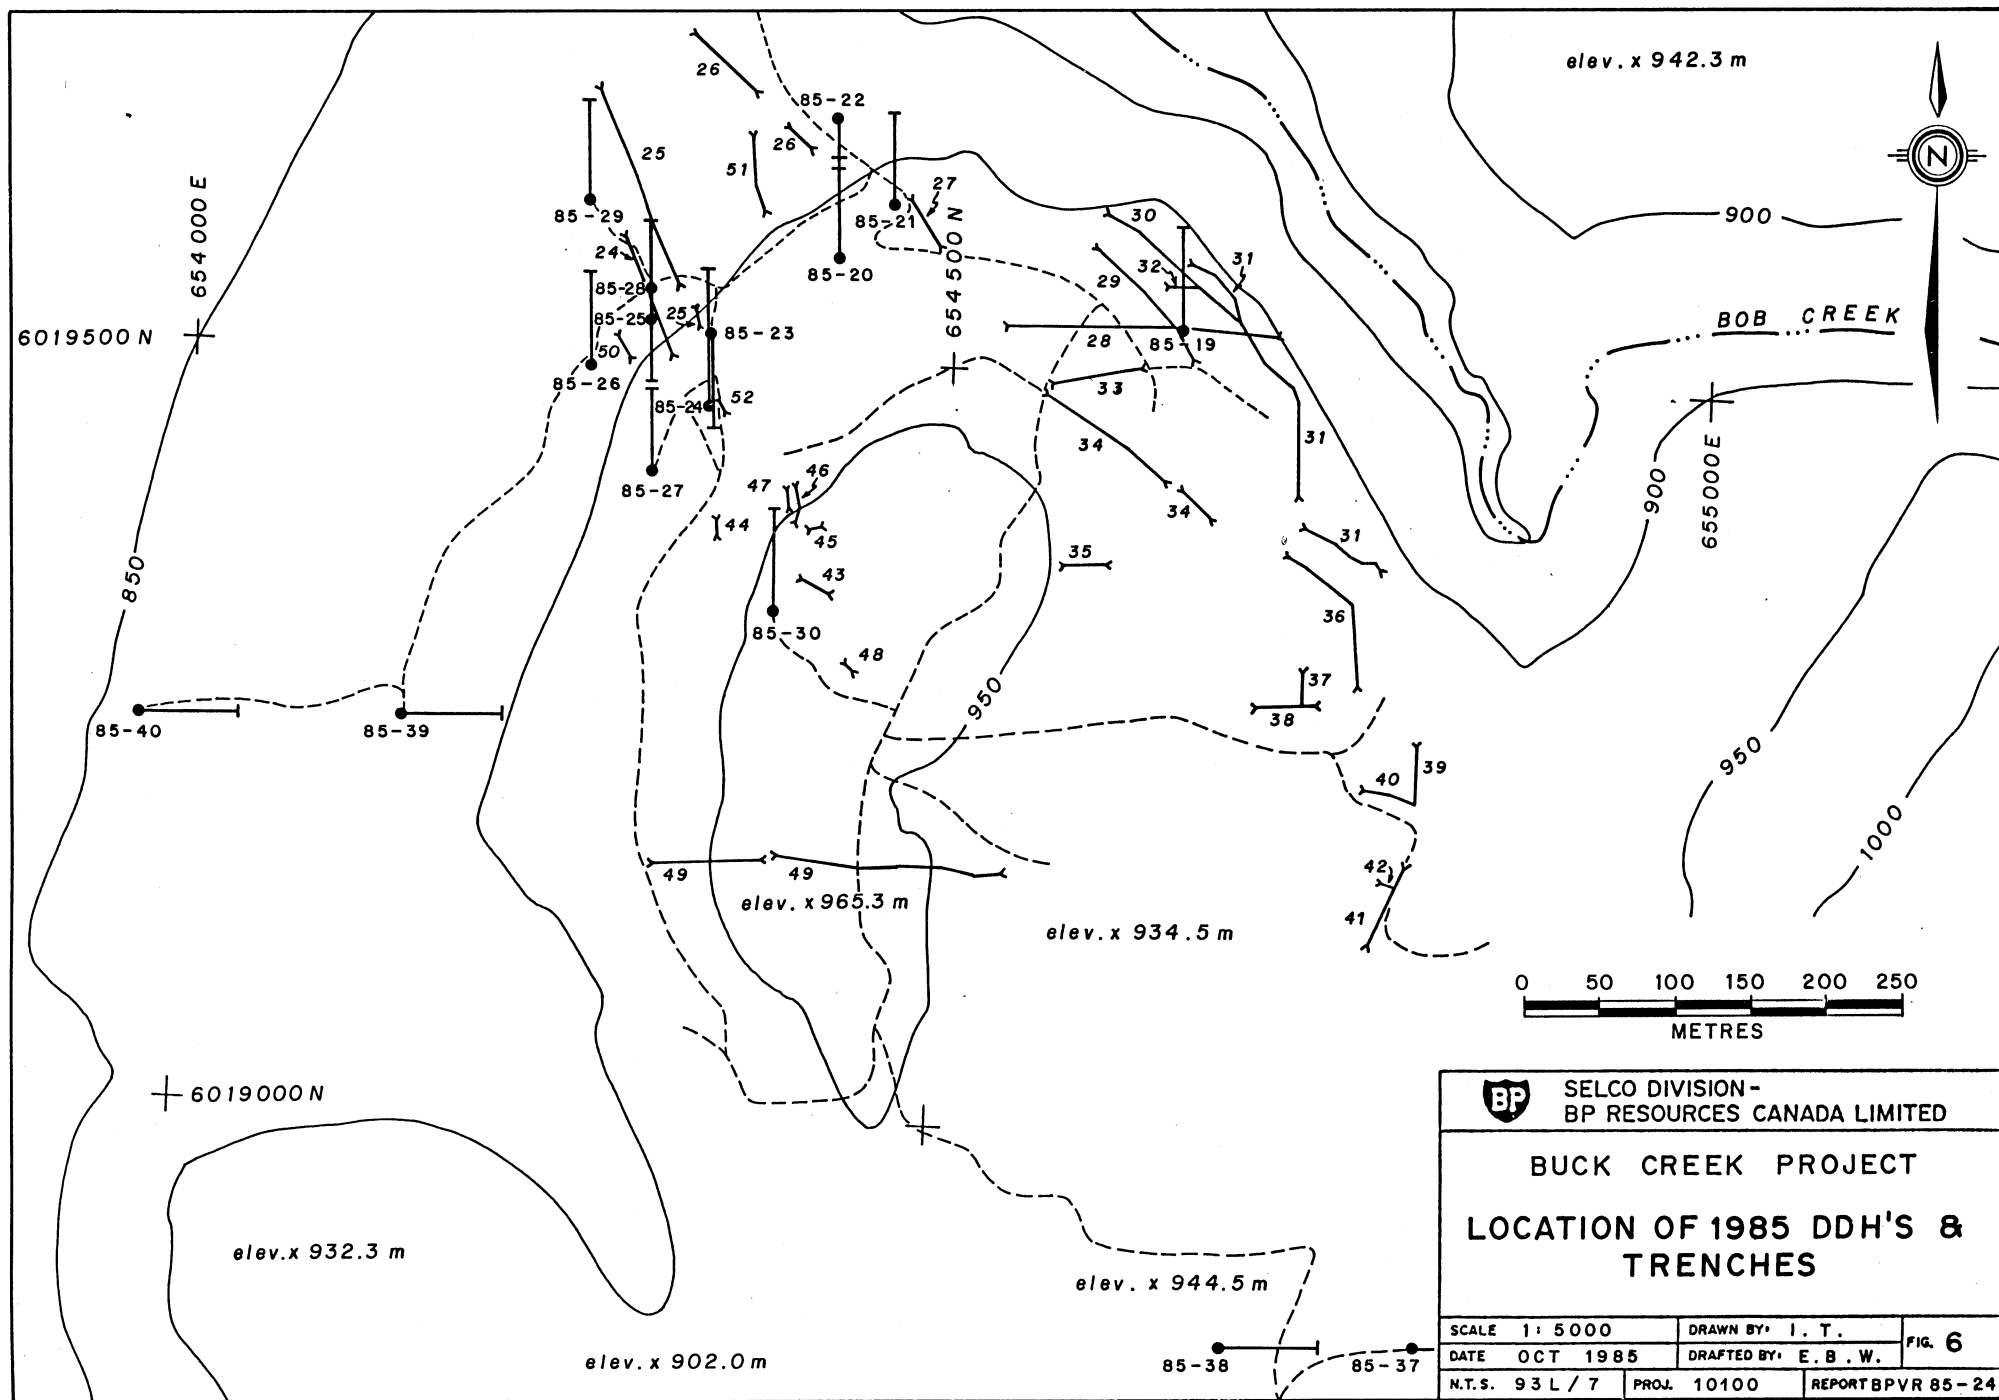

Here is a somewhat late summary of Selco-BP/Cominco's
1985 work program on the Bob Creek property.

20 NQ holes totalling 2022 m
1820 m of backhoe trenching and chip sampling
extensive high density soil sampling.

Figures 6+7 show the location of the 1985 holes + trenches.
Figure 7 overlaps the southern edge of Fig 6.

Your Old Timers Hockey Tour of Europe
sounds great.

Regards Mark Rebagliati
