

ORCA - [New Discovery] Nov. 19/03

- chat with Neil FROE (ex-City Res.)
 - showed 2 'spectacular' samples of free gold
+ Ag-bearing min. in quartz 'vein'
(host rx. = Karuttsen volcs + intrusive)
 - No info in Falconbridge Property Files = no ^{previous} work
 - showing on steep, heavily-tree slope
 - showing prop. to mining co. now (e.g. Tyhee Dev)
- Location: ESE of Taseo, on west slope of Botany Inlet
(w. of NI 103C062 and east of NI 103C007)
