Subject: Bowron Coal Field

Hi Dave,
sorry I missed your call last week - I was out of town and forgot to put a "temporary absence" message on my phone.

Regarding your interest in the Bowron Coal Field, here is a link describing some of the general characteristics of coal fields throughout BC, and the Bowron field is included.

http://www.em.gov.bc.ca/Mining/Geolsurv/coal/coalinbc/coal_bc96.htm

I understand you are at PDAC, upon your return please call me for additional information. Also, we have a large contingent from MEMPR - Mining and Minerals Division (MMD) at PDAC. If you had some specific questions, they are all working from time to time in the MEMPR booth at the Trade show.

Here are some key contacts who are at PDAC:

Dave Lefebure - Chief Geologist, MMD
Tom Shroeter - Senior Geologist, MMD
Tom Kearns - Regional Director MMD, Northeast/North Central BC

Thanks!

Glen W. Wonders, RPF MBA
Director - Coal Resources
Ministry of Energy, Mines and Petroleum Resources
