

BRIDGE RIVER GOLD

The famed Bralorne and Pioneer mines constitute British Columbia's leading gold camp.

In the 1860's prospectors from the Fraser River and Cariboo region found gold in the gravel of Bridge River. Hardrock claims were staked in the 1890's.

More than a \$100,000,000 in gold has come from the rich ore of these mines since 1932.
