

B.C. MUSEUM OF MINING
GOVERNED BY BRITANNIA BEACH HISTORICAL SOCIETY (1971)

881463

July 6, 1988

Mr. Nick Carter, President
B.C. & Yukon Chamber of Mines
840 West Hastings Street
Vancouver, B.C.
V6C 1C8

Dear Nick:

On behalf of the Britannia Discovery Day Committee and the B.C. Museum of Mining, I would like you to convey our thanks to the B.C. & Yukon Chamber of Mines for the financial contribution of \$ 100.00 to our recent centennial celebrations. Also, I wish to acknowledge the generous contributions of time and expertise made by Tom Schroeder and Jack Patterson. Their participation in the popular "Rock Talk" was most appreciated and their interesting programme generated much interest.

Discovery Day was a great success, thanks to the volunteer efforts of many individuals and the generous financial and in-kind support of local businesses, the mining industry, service associations and clubs and government agencies. Over 3,000 people came to Britannia to celebrate and many of them were former residents who enjoyed meeting old friends and exploring familiar places. The many activities taking place all over the site and the large crowd made it easy to envision the future Britannia Mining Village. As you know, our Master Plan is to preserve and restore this National Historic Site so that future generations will be able to experience a day in the life of a mining community. On May 14th, we proved that this goal is attainable, especially if the mining industry continues to provide the necessary community support.

The B.C. & Yukon Chamber of Mines should feel a great sense of achievement in the role they have played in the ongoing development of the Museum and the preservation of our mining heritage.

Sincerely,

Marilyn Mullan
Executive Director
