Absolutely - we would need to know EXACTLY when to expect them. Cheers, Tom.

**Subject:** Britannia Remediation Project

Hi Tom.

I'm on a technical committee working on the Britannia Remediation Project, and we will soon be sending out RFP's for some of the key design work and associated contracts. We have a couple of armfuls of reports and documents which might be of interest to potential bidders, and it has been suggested that we make those available for viewing at a central location like the MDO. At present, those documents are being held by Rob McCandless of Environment Canada in North Vancouver.

Subject to confirmation by the committee that they wish to make the documents available, it would be most appreciated if you or someone on the MDO staff could keep the documents together and provide prospective bidders the opportunity to review the reports on site.

Please let me know if you are able to assist us with this for a few weeks.

Cheers,

Ted
