Hi, Robin. Thanks for the update. Will keep my ears/eyes open over next month and discuss updates with you at Roundup? Sorry - just to busy to think clearly these days. Have a good Holiday Season! Tom.

Subject: Zymo & Cabin Claims

Tom,

FYI, the interest you generated in Zymo has been deferred until next year or later, following the bridge to go across creek Mulwain and the road to cross the alteration system.

Also, I have not yet found any company interested in having a look at the Fe-oxide system I identified on the Cabin claims last summer. With all the renewed interest as of late in Fe-oxide systems, given the recent exploration success in Australia (below 200 meters depth), I thought I would touch base and ask if there have been any companies expressing interest in such systems in B.C.? If so, I would appreciate any leads you might have. Thank you.

regards,
Robin Day
