-

Nighthawk
Ch. 17 of

DAYTON CAMP

June 23/94
+28°C

- tour led by Bob Miller
- rotary (RC) percussion drill (AI-)
- argillite with pebble cgl. underneath
- + gnt. underneath

(14) + (15)

→ "The Prospector" machine

North Span → (made in Kelowna)
Expl'n → to 300 ft.

300 ft/day @ \$10/ft.

(similar to Longyear - 38 rig)
est. cost ~ \$150 to \$200,000

- anomaly testing ~ 1000 ppb Au

STOP - War Eagle - Le Roi

(16) Look East over

→ 62 ft in massive po
- gnt - diap. skarn + po + cpy
width @ 25 m x 150 m length

- ore dumps 8-10 ft deep

STOP - N. end of Dayton Camp

(Cu-Au) skarn

local VG in shears

W197 JN1 X550B3 2 23R
STOP Admiral Dewey zone

5' @ .55 opt Au

- assays 0.5 to 0.75 opt Au

~~Strong quartz vein~~ ± breccia ^{carbonate} _{in all instr.}

- Strong quartz vein with Au

- shaft @ 140' deep

'Best hole pulled in Dayton Camp'

STOP centre (top) of geodan / geophys. anomaly

- eq. 5 ft @ 0.24 opt Au

- mainly pyrite

(Anarchist gnst. 'wedge' overlying
intrusive rk (to west))

- Au in structural 'breaks'

Dale Leiman - rancher with
great ranch/wm on top of
Anarchist Mtn.

Bob Miller (Spokane) 509-466-0770

June 24
28°C

OLD NICK

est. 100m tons @ .2% Ni
- very siliceous (silicate) rock

(17) Look N down old trench
over Bridesvale-Rock Ck. Hwy.

- excellent old (1960's) Newman
AR (private rpt?)

[Note: Bob Miller indicates vague
similarity (siliceous nature) to
host rx. on Ket 28 claim
~ 500m to S + 350' higher.

- looks 'met'am, rext'd gtzite'

- est. 53% metallurgical recovery

(18) Ni - showing + group
