Re: SITE VISIT - MONDAY, AUGUST 2nd

Dear Ciril: Further to our brief conversation this morning, I provide the details concerning my request to visit the site for an hour or two (10am to noon) on Monday, August 2nd (I apologize for it being a holiday; however, that's the timing of my itinerary). I (along with my wife) will be arriving by truck from Watson Lake (Watson Lake Motel, 867-536-7781) that morning and would like to get a very brief "update" (I last visited the site with Paul Wojdak in 1997) on construction /infrastructure at the project. I have maintained contact with Barney Kovacs and certainly wish Cassiar the best of luck in advancing this significant project.

Respecting the 'holiday' timing of the proposed visit, I hope someone might be around (Jim Doucette might even be back?) that could at least let me through the gate? I wonder if someone could leave a message for me at the Watson Lake Motel the night before (Aug. 1st) regarding the status/logistics for visiting the next day?

FYI- I will be en route to the Northwest on Sat. July 24th; I will be in the Vancouver office until then. My secretary, Christy, will have my itinerary en route, in case you need to track me down.

Thank you , in advance, for your assistance.
cc. Barney Kovacs
