1 sample of ~~bedded~~ massive bedded
galena + ^{white} barite.

Apr. 25/91

CIRQUE

- Rick Visagie

BARGE Scenario

- Curragh plans to have a barge, custom built (3X its reg'd capacity) - ice breaking capability
 - to potentially haul wood chips south to Mackenzie
 - also other projects eg. Elk, Fluke (even Alley; Treadegone porphyres)
- want to use new port at Squamish (BCR)
- Diesel power (too expensive - hydro or natural gas)
- Potential 'mini-hydro' project with Ft. Ware reserves
- Rick has 'world-wide' transportation costs
