

A wide-angle photograph of a vast, flat, snow-covered landscape, likely a glacier or icefield. The snow is bright white and shows some texture and shadows. In the background, dark, rugged mountains rise against a grey, overcast sky. The foreground is dominated by dark, jagged rocks. A small, dark object, possibly a person or a small structure, is visible on the left side of the snowfield.

CAMBRIA  
ICEFIELD

65. Looking NE from  
H1 structure, CLONE.
