

# COPPER CREEK

Wed. Aug. 16/06  
Cloud, sun  
+18°C

- with Paul Wojdak + Jill Pardo
- Firesteel Res. (Lloyd worthing)
- Telegraph trail runs right thru  
10 ddk planned (don't have one lined up, taking  
for buying one)
- 8-12 trenches - in progress on Dick  
area
- cleared old road to Pyrrhotite Ck.
- Land @ camp (hunting days) (for later drilling)  
- just east of airstrip
- look @ Sheslay Mike's cabin  
(octagonal log building, ~ 2000m  
w of N end of airstrip.)
- Don Barker - new (July '06) Pres.
- Dave DuPre - demoted

Photos of Dick area - current trenches

- Fly over Pyrrhotite Ck. target  
(past camp + drilling), incl. access  
road being brushed out - future  
possible connection (~ 8 km) to Golden  
Bear Mine road.

# COPPER CREEK

## (FIRESTEEL)

Sun. Aug. 1/04

- ~ 120km west of Gease Lk. (Prey, Sunny + 25°C)
- with Paul Wojdak (visit - June 17)
- Courtesy of Mark Rebrighetti (+ Barbara) (+ Jim Oliver) - [from GBR camp] [i.e. property extn.]

- Host Rk. = Monzonite to monzodiorite
- extensive plumbing (fracture) network
- ab. mal. + azurite + tenorite + chalcocite
- [+ (px) + mag + py]

- mal. to strongly magnetic
- silica deficient (undersaturated)
- (mainly ksp + bja)
- [trace/rare qtz. veinlet] + hcbcat (No MoS<sub>2</sub>)

New <sup>upper</sup> ('04) trenches <sup>using</sup> in Dick <sup>(K<sub>2</sub>O)</sup> (ct. lower, older + deeper)

- walk over (up) to East side of Dick <sup>(K<sub>2</sub>O green garnet)</sup> ~~pyrite~~ + mag + mal. chain in mafic Stuhini fuff (old 'tope' road)

- upslope to pyritized augite por.
- 'old' (capped) drill hole on small cleared rock knoll upslope - intr.

- soil geochem should work well.

Dick West; Sign of 'sheeting' (up to 12 fracs + veinlets per foot. (OVER)

Digital photos (3) of OBR 'camp' crew  
→ email copy to Mark R.

[would have had 14-person camp]
