

MT-104A¹⁶¹ DEL NORTE (L¹⁶) Sept. 17/02

- Merl + Alex + (Ed Krakowski)
- Tenton Res. - new discovery of (mesothermal to epithermal) quartz veins/breccia along contact of Betty Ck. & Salmon R. Fm.
- assoc. with 'felsic' dyke intruding argillite. ^{Portland Canal}

Showing is in a snow shoot (not previously discovered)

Drilling from 3 sites planned

Mineralogy: PbS + ZnS + tetrahedrite + arsenopyrite + py (no cpy?) with good Au + Ag values

[Note: ~600m from Mint file "L¹⁶"
104A 161

- Showing is closer to Nelson Ck. than Del Norte (i.e. small tributary)
- ⇒ Check Maplace/Mint file
