

DINA (NWB)

June 18/80

3 1/2 miles in or rd. from Buck Flat. rd

Graham Scott - geol.

ddh - 6

- in Hazelton pyroclastics
+ minor argillite (graphitic)

py only sulphide

chlorite ab. - rare sericite

no dust tuff or basal cgl.

→ probably below Coosy rx.

3 ddh (1970)

IP anomalies

1980 ddh (6)

NWB 67

NWB 69

Cu geochron

R. D. PENHALL LTD.
DURHAM PROOF
MADE IN B.C.

882326
934/W 934 260

- holes drilled for geol. mainly
i.e. not correlated to IP.

- redoing IP results

- only have assay logs of 1970
drilling - no map of location
or drill logs!

- french ~~development~~ - no step?

- hills above = Tip Top Hill volcs.

- discovered by geochem. in 1967
