DOLLY VARDEN GOLD ZONE

- Barry Devlin - Dolly Varden Resources - office -
- Dery, Michener + Booth - New Westminster
 - u/G program on 'old' Dolly Varden prop. 'cancelled' at last moment, due to contract arrangements (#500,000 raised)
 - Instead - surface exploration program to NW on Dolly Varden Gold Zone (located south of Vanguard + Homestake showings) has outlined a significant gold zone within the Cu-Au 'belt'.
 - anomaly (rock + soil) > 2000 ft long by 100 ft wide
 - av. 0.1 to .15 oz/t Au - values to > .5 Au
 - soils up to 21 oz/ton Au
 - pyrite + cpv + minor barite veinlets
- intense silicification
 - late stage 'epithermal' system in Hazelton volcs. i.e. younger than Dolly Varden mineralization
 - Rod Kirkham + Dani Aldrick dropping unannounced + wanted tour of area (while DV breaking camp i.e. "pissed off")
 - needs follow-up!!
- Analogy (by B.D.)
- Stewart camp
- Toddoggone (Lawyers)

Dolly Varden

Reserves: (March / 1974)

1,712,444 tons

@ 9.51 g/ton Ag

+ Pb, Zn, Cd

June 10/76 NM

1,299,877 tons @ 8.93 g/ton Ag

Visited Aug. 2/18

Derry, Michener, + Booth
Consulting doing work on
16 cls. over Dolly Varden

- geochem. cls. not previously
done - i.e. east side of
Kitsault creek.

DOLLY VARDEN

Jan. 26/85
Cordillera
Round up,
Van.

- Barry Devlin (ex-USBoax)
