TOB chat with Duane Poliquin (Fairfield)

- option agreement 'close', but first Fairfield has to deal with a shareholder lawsuit (related to something John Stollery said/did)

- 1999 - carried out some minor field work, plus worked on geochemical ratios (à la Hans Madusky)  
→ main (pit) zone shows up well → looks like there is a parallel one (anomalous) which requires work!

→ Hope to see work in 2000!
