Subject: Elkview Coal

1800m

Tom, exploration at Elkview is projected to be about \$90k expenditures (6, roughly 300m rotary drill-holes) in a new area called the Green Pit.

Incidentally, the big Connors rig from Sullivan Deeps phase 1 is on the Pakk property, deepening one of the holes started last year (Klondike Gold). I'm going there Monday with Doug Anderson.

Cheers,

Dave Grieve
