Homestake Mining

TOS → Eskay CF.

Eskay Creek Mine (100%)

The Eskay Creek mine, is located approximately 50 miles north of the town of Stewart in northwest British Columbia. While the majority of ore is directly shipped to smelters, a gravity / flotation mill completed in 1997, treats certain complex ore that previously was shipped directly to smelters and lower-grade material that otherwise was uneconomic to process.

OPERATIONS

Production		Tons (MM)	Grade * (Oz/Ton)	Recovery	Ounces Produced *	Homestake Share *
1st Quarter	2001	0.055	1.577		77,100	77,100
Year	2000	0.212	1.703		333,200	333,200
Year	1999	0.193	1.733	95.0%	309,000	309,000
Year	1998	0.162	1.891	95.0%	282,000	156,500

Costs		Cash Cost (\$/Oz)	Noncash Cost (\$/Oz)	Total Cost (\$/Oz)
