

SOUTH FINDLAY Tue. Sept. 26/20

- Chuck downie + (Paul Wilton) Sunny +20°C
- 3 ddhs 3,000m by Rio Algonquin
(option from Eagle Pls.)
- LMC target

→ Rio Drilling - photo

#1 723 - LMC - photo
730m - Sullivan horizon (mudstone)
best - 1.4m @ 260 ppm Zn

#2 ^{~1020m} 0.65m @ 1111 ppm Zn ^{+ PO [eq. 747.5m]}
(ZnS in qtz vein in mudstone)
[Note: ~130 ppm Zn in Sullivan sub]

#3 - similar - hit LMC + Sullivan
shales

> 20,000 feet ddh on Eagle Plains

FINDLAY SOUTH ^{Mon. Sept. 20/99}
 (Doctor Crk) Sunny + 27°

- with Paul Wilton

- Steve Combes (Penna)

base house in Cranbrook
 (800-block, 4th)

- felt that Findlay North
 (Tourmaline Ridge) was
 too far (several km) away
 (up in section) from a vent.

- SW part of property ^(south)
 had/has more potential
 for near LMC target
 (i.e. deserves a drill hole)

Wed. Sept. 22/99

- with Paul Wilton + Maggie Atkinson + 27°

→ visit Pyramid Mon. project

- Sig Weidner

'99 work; Minimal follow-up/check
 mapping (no further geochem/geo
 i.e. in #0.02 exp.)
 Plan for 2000 - Drill min. 3-4 holes
 (up to 600m depths.)

2970E7

DOCTOR CK /
FINDLAY CK.

Sat. Aug. 8/98
Sunny + 32°C

- north block option (from Termunde)
- Paul Wilton / Tim Termunde
- Steve Coombes / Kenecott
- spent ~ \$0.2M in '98
- staked additional c/s. at SE corner to cover 'Silver Key' + (new) Bad Boy showing

SE
SE
053
shown

- will drill later in '98
- airborne geophys. TD NE trending structures - bounding a basin.
- north part of claim gp. is higher up in 'upper' Aldridge. south part is in (good) middle Aldridge.

Zn - prime interest!
(replacement style - cf. sedex)

Note: Keneco also working at Irishman Creek (option from Sedex)
