

- Dave Pignin
- sim'l. to Sullivan but diff. alt'n
'Sullivan time' fragmental 'chute'
- vent system (see photo) - with original?
(pervious / impervious) ^{see floor mound}

8265W
035
Fors
826/5W

→ + journaling
- drilled off ~ 300m circular
(at least one) → conc.
on 'Sullivan time' area (to east)

*
833032

GAP (ownership-private) between
Vine (N) and Fors (S) with
no drilling for Sullivan-time rx
(~ 8/km strike length)

Currently - drilling deep (2000-3000')
- gabbro (N-trending) 'arch' holes

water churned thru mixed
sandstones (ie no bedding, massive)
Analogy?: North Star Hill
(little later than Sullivan)

- ⑧ Model
- ⑨ 70 miles apart - marker beds
Doctors Ck. → Goat River

(10) Looking E along St. Eugene
mine dump (to town of Mayle)

(11) Look E up St. Eugene dump

(12) Seds. (qtzites) with rounded
'reaction' frags. just below
one of several Mayle sills
(ie. hydrothermal affect of sills)
(~20 km east of Creston) - fluidize the
seds 'voids'
near Kitchener

IRON RANGE - Fe_2O_3 and Fe_3O_4
(view)
