**Subject:** Cathro Weekly to 10/5/01

**PROSPECTORS ASSISTANCE PROGRAM:**

**John Kerr** - ~~broke his leg rollerblading~~. Most of his work had been completed but he sent his partner W. Gruenwald back to the Perry River area to do a bit more sampling for Tantalum-Niobium. Encouraging results so far.

**Neil Church** - receiving encouraging results on zeolite prospects in the Okanagan. Possible deal pending.

**Leo Lindinger** - evaluating several stratabound zinc prospects in the Raft River area. His program is nearly complete.

**FIELD:**

**Poet (Cleve Lowry, PAP)** - spent one day in field sampling and mapping this carbonate-hosted zinc prospect near Adams Lake. Results will form the basis for a short paper in "Exploration and Mining in BC - 2001" promoting this target in the Lower Cambrian Tshinikan member of the Eagle Bay Assemblage.

**EXPLORATION ACTIVITY:**

**Pothook (DRC Resources)** - Notice of Work for several drill holes south of the Pothook pit. Teck Corp drilled here in 1998 to follow up some anomalous Au values in altered Nicola volcanics.

**Silver Lake "Discovery B" (Christopher James Gold Corp)** - drilling of 4 holes completed so far. Total program should be about 8 holes and 1000 m.

**Santoy Resources** - Assisted Adam Travis and Dave Mehner of Santoy in compiling information on several new copper-palladium-platinum targets in southern BC. Staking underway?

**Jim Oliver** - Nice email to Ron Smyth thanking Cathro/Madu for our assistance in getting information for his work near Revelstoke. Jim normally works for the Hunter Dickenson Group but is considering acquiring ground for himself and/or investors.

**Getty South (Getty Copper Corp)** - Small geochem/mapping program underway (claim maintenance only?)

**OTHER:**

**Advanced Prospecting School** - Discussed possible venues with Dave Lefebure (GSB) and Rob Stevens (BCIT). They are looking into sites in Brookmene, Merritt, and Grand Forks areas. Pulled together geological information for them on the Nicola Lake area.

**Mike**
