Just to update you on Skagit, ADMS are reviewing drafts of the Cab Sub I created using much of your informaiton to beef up the mineral values and the investment in mining in BC angle. We would like to ultimately see the claims area come out of Rec Area status - Parks Minister is strongly opposed to this. I will be trying to work out a process that will be viewed as rational and will lead to our goal being achiveed in the long run.

After i get more feedback from ADMS I will be pursuing this further when I return on Aug 10.
