

## GOLDEN CROWN

Thurs. July 7/05

Sunny + 28°

- with Merril Mining + Dave Green + Nick Moseley
- hope to drill later in season - to W  
(either surface or rehabilitate old u/b)
- [didn't drill last yr - snow]
- surface tour

[Photos (2) - winner diorite (Roxul)  
Quarry (+ drill) - high Al

→ Fr. to coarse-gr. hornblende diorite

605388  
883509

Photo - look ~~W~~ along King vein  
between Winnipeg + Golden (Crown)  
vertical vein within shear zone  
- massive sulphide vein (py-cpy)  
- drilled down to ~100m - minor  
assembly

Photo bifurcating vein

Photo - Look E along King vein

Photo Look N towards proposed  
Zip Mill site (other side of powerline)

Photo Golden Crown adit

Photo: Zip Mill - 'condemnation' trench by  
+ 2 RC holes in 2004  
(17 km haul from Lexington)
