

GREEN HORN 82 KSW124

- chat with Bruce Doyle - Oct. 1/01
- Located in Arrow Lakes area.
- Stratabound Cu ± Co showings along 2 km strike at contact between Kaslo Gr. volcs. + Sloam Gr. sed.

- Cu grades ar. 1-5%
- cpy + magnetite

HISTORY: Phelps Dodge optioned (few years ago) + did geophysics, but no geochem. - Drilled 3 holes on geophys. anomalies, but did not have benefit of geochem anomalies.

- BGM Diversified optioned - Craig Payne examined

- 2001: Cumberland Res. examined (but no follow up - yet).

ETGS: - Good Cu target ready for drilling

[OVER]

Talked with Bob Cameron
(Phelps Dodge) - Oct. 5/01

→ he still really likes
to potential - openly
'admits' PD failed to
drill the 'best' anomaly
(i.e. incl. geochem)!
