message. - dropped by, Re: Discoveries

Map. - he was the prospector who

found 'Hail Hopper' Noranda

staked in '65 - did 3 wks work +

found 'nothing'. Quebec - Ontario

Came in in 1955. He knew it was  
a mine - later he went to Noranda  
- Both had adjoining properties  
& Norand was operator

When he talked to Vic P

he had very little luck convincing  
him of his story - but was  
backed by Art Sorigoli (with  
Noranda at the time).

In summary - wants prospecting  
recognition - very big deal to  
him. I said I would pass info  
onto author for next update (in  
the future)

For reference his # is

327-4209.

(uhew!)
