

SABLE / KAIT 92GN July 14/03

- Chat with 'happy' George Nicholson (GN)
- showed cut + polished same - 'identical' to Giant Mascot
(i.e. PbS + Ni + Cu assoc. with ultramafics ± metaseds near contact with intrusion (Scuzz))
- Charlie, Greg + Murray McLaren + Paul Metcalfe in field mapping + sampling
- several new showings discovered! (Cu, Ni, PbS)
- still need to stake more ground
- See "Expl. in BC, 2002" article! (file)
- Claim Maps: 092H071, 092H081 + 092G16E

→ Bob Krause - staked alot of new ds. under new co. name - "International Paramesus" (sp?)
 - with George Nicholson (Garex) → optioned / staked both Klatt + Sable properties + staked 'all over'.

~~Oct 1/03
 - JGS talked with Bob Krause
 → in 2003, Int'l Paramesus spent ~\$130K - Final report + IPO in progress
 → 2004~~

i.e. Potential BIG Play?!

- chat with GN
- completed alot of scientific/technical reviews Sept. 11/03
(incl. access to ALL thesis) via Charlie Greig + Murray McLaren + Paul Metcalfe
- Major crustal break (regionally) → necessary to re-ense 'geology of West Coast'
- in midst of completing all necessary filings (Securities Exchange, etc.)
 → show prelin. data to Anglo Amer / Amplats / BHP Billiton (?)
