Dear Mr. Schroeter:

Re: Harvey Group Claims, Tatlayoko Lake, British Columbia

I have enclosed a copy of my overview of the Harvey Claims for your information and files.

This document was prepared to solicit interest in finding a joint venture partner for the property's exploration.

The colour xerox of part of the extensive gossan zone is most interesting and speaks for itself.

McLaren's exemplary 1990 Bulletin 81, Mineral Resource Assessment of the Chilko Lake Planning Area also applies to the area of the Harvey Claim Group. The whole region appears to be pregnant with minerals hence any attempt by the current government in Victoria to declare this region as parkland would be a travesty and most unjust to the industry.

Like always, all we need to do is find the necessary funds to get on with it.

Yours very truly

J.M. Ashton
