

HEART PEAKS

May 2/96

- chat with David Aurum (Canamera Geological Office in Gastown near Cyprus)

- acquired by staking in '95!
 - only has Assessment Report (Ken Addison, 1984) to work with [TGS suggested contacting Ray Du Jardin at Inmet for "originals"]

- TGS suggestions:

- ① Landsat imagery
- ② TRIM
- ③ Creek panning / soil profiling
- ④ Fluid Inclusion studies (silica)
- ⑤ Clay mineralogy
- ⑥ Look at regional (total) property
- ⑦ Airborne radiometrics (K/Th)
- ⑧ Reece I.P.
- ⑨ Basic prospecting (vs. mapping already done)
- ⑩ Make use of / access Golden Bear rd. (\pm camp/airstrip) facilities.

- '96 Proposed Budget = \$0.5 - 1.0 M

- David requested to get original Cam Stephens (Syndicate) coloured map.

July '02
