

[MI 93 L 177]

Feb. 8/93

HERD DOME

Location: downslope to NE of Herd Dome
 - talk with Frank Onucki (owner)

- '90-'92 - under option to Placer Dome (Gerry Delane)
 - end '92 - PDI ran out of budget & returned property to Onucki
 - large property with central 'vent' breccia (volcanic collapse crater?) with radial fractures
 - latter stage influx of silica (+ sericite + alunite) + tourmaline
 - metallics: po + py + cpy + arsenopy + sb
- Targets: 1) Massive sulphides
 2) Stock work

- Onucki showing property to Noranda (Bob Cluff) but didn't like way handled so he pulled details back. Would only talk to boss (Garth Pierce) next. Teck (Bing Lovering) also interested.

Comments (TOS): Similarities to Equity Silver setting (+ Limonite Ch.?)

Feb. 11/94 F.O. says Iron Lady Res. (Shamus Young) to drill in Summer

HERD DOME (HD) Aug. 19/98

- chat with Frank Onuki (owner)
- 'close' to deal, with Hunter Dickenson Op.!,
(Rebagliati) [ready to drill]
- Main (breccia) zone on NE
(also - Onuki + Bragg zones)
- Volcanic 'pipes' / vents
- high grade cpx
- [visited in 1982 by TGS + Gavin Dixon]
- Gerry Delane (ex-Placer Dome) at meeting
with Hunter Dickenson.

-
- chat with Frank Onuki (owner) June 2/99
 - Frank has 100% back (lit. Takepoint Minerals - Bill Rand ^{couldn't make} ~~it~~ _{on} ^{Takepoint})
 - Drill-ready targets!
