Subject: Salmo

Hi again Dave

Didn't hear from you so guess you are away. I was in Salmo all last week but am now heading back to Atlin for a couple of weeks. Expect to be back in the West Kootenays around mid September and starting the drilling on Emgold's Stewart Property around then. That may be a good time for your visit.

Linda

I will pass this message on to Jack and have him keep in touch with you via email. There is some interesting stuff (VG) that we've found recently on the Stewart property right on a highway outcrop so you could at least stop there....

Linda

Thanks for the update, Linda. Our visits are not 'restricted' to ones with drilling; however, since we plan to revisit the area later this fall, I don't think it's necessary to ask Jack/Jarrold to take any time out of their busy schedules during our visit to the area next week. We may call the Salmo office (tel. #?) to 'check in' with Jack; we'll be paasing thru on Thurs. July 8th (3-4pm) en route to Nelson. [do you have Jack's email address?] As for Atlin - great to hear you might be there for the conference in early August. Paul and I will look forward to your update on Yellowjacket. I will be here until the end of the week; then, in the field for much of the summer/fall.
