①

# KASLO SILVER

Thur Aug 6/98

- with Paul Wilton + Terry Hoy Sunny +32°C
- Linda Dandy (Cream Minerals) - Beachcomber Motel
- just started drilling again on

## Silver Bear Zone

- Bernie Augustine - mapping for Cream Ag, Pb, Zn, soil geochem appears to trace limestone units in slates

\* Property put together by + <sup>optioned from (EMC)</sup> ~~Denny~~ over past 25 yrs.

- VLF-EM traces graphitic zones (+ hopefully + mineralization)

(see Georges Beaudin (OSC) map - regional)

- min. dips ~ 60° into hillside

①

## Cork - Province adit

1997-98 drilling success - replacement mth. in 1st.

- 3000 tons of high-grade (ship water to Answarth mill?)
- mainly ZnS + PbS + (cpy) + Ag

PHOTO 1

- ~~Cork~~ Province adit (to left) of water fall - Group photo - host rk. = 1st.

884473

② Photo 2 New rd. cut (Stocan Forest Road)  
on Silver Bear 'Spky' zone  
(i.e. to N of main structure/shear)  
[up to 100' opt Ag grabs]  
→ black shear zone

Photo 3 <sup>DDH</sup> 98-SB-9 - first 'new' hole +  
previous (June) drilling = shales,  
lost 4' due to ground problems  
→ now using HQ + lots of mud  
- hit VLF anomaly @ 100' down,  
then lower zone (older workings)

Stop Gibson dump at lower  
end of tramway (Minnie May)  
- cise-gr. brown ZnS + PbS + py + py  
Note: 'round' PbS faces

Stop ~~Black Bear~~ Black Fox zone  
dump - cise ZnS + py + minor cp + Pb  
in gtz (vein + bx.) - some drusy  
cavities.

Aug. 6/98  
Sunny + 32°C

③

KASLO SILVER

on North side of Keen Lake

[stop] Black Bear (+ Liberty)

replacement + banded

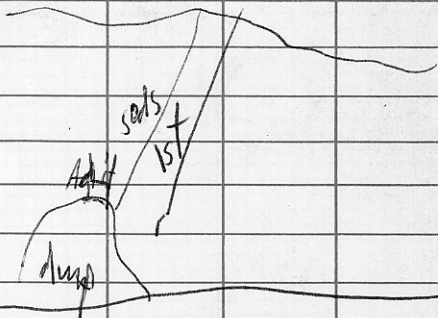

ZnS - PbS - cpy - py - arsenopyr.

(+qtz. + siderite)

→ very fr. - gr. weathered tan,  
plus coarse gr. dk. brown→ take 3-ATV's up very steep slope.

PHOTO Looking W to Bismark

(from red Gold Cure)

- 1st (upright) to 1st <sup>lower</sup> Adit (above <sup>screed</sup> dump)PHOTO - as above, from top (~7000 ft)  
of hill- Examine trench (photo) - see  
press release on Gold Cure zone

④ PHOTO - looking S towards  
Gibson Zone + Silver Beach Zone
